

NGK Metals Corporation

917 US Highway 11 South Sweetwater, TN 37874 423 351-0372 Fax 423 351-0365

Dear Valued Customer:

NGK Metals Corporation strives to keep all of our customers aware of how to safely handle beryllium alloys while processing them. NGK Metals Corporation sends each of its customers a SDS (Safety Data Sheet) and "Speaking Out" document to keep them informed on safely processing beryllium alloys.

NGK Metals Corporation requests that if your company sends this material to another customer, or outside vendor for processing, please attach the SDS and "Speaking Out" document with the material. Also, please ask them to pass on the same information to anyone they send the material to while processing it.

NGK Metals Corporation would like to thank you for helping us to help others stay informed while safely processing beryllium alloy materials.

If you have any questions about safe handling procedures, please feel free to contact us.

Sincerely,

A handwritten signature in black ink that reads "Jamie Lones".

Jamie Lones
Manager Environmental and Safety
